Maxell OZONEO PLUS Low-concentration
Ozone Anti-bacterial Deodorizer Catalog

MXAP-APL250WH

MXAP-APL250BK

Major specifications

Model	MXAP-APL250WH	MXAP-APL250BK
JAN code	4902580755393	4902580755386
Discharge method	Multiple-ring-type corona discharge	
Power supply	Exclusive AC adapter	
Power input	5 V DC/0.5 A	
Maximum power consumption	About 2.5 W (in normal mode)	
Operating temperature range	0 to 40°C (when no dew is present)	
External dimensions (W x D x H)	About 125 x 165 x 195 mm (not including projecting parts)	
Weight	About 620 g	
Recommended applicable range	Normal mode: about 6- to 16-tatami sized room*, Low mode: about 3- to 8-tatami sized room*	
Accessories	Exclusive AC adapter, USB cable x 1 (about 1.8 m)	

* This is an approximate standard based on our test results; effectiveness varies depending on surroundings and operating time.

- The effectiveness of the product varies depending on the environment in which it is used, such as temperature and humidity, hours of use, and location.
- If there is a baby or a small animal in your home, choose where to install and use this product carefully.
- Do not bring your face to within 30 cm of the low-concentration ozone outlet.
(This product is equipped with a body detection sensor, and automatically stops when a person enters the detectable range.)
- Be aware that metals that rust easily and natural rubbers may deteriorate when in contact with ozone.
- The information contained herein is accurate as of March 2018.
- The names, logos, and service marks are trademarks or registered trademarks of Maxell and other companies.
- Photos and illustrations may be different from the actual product.
- Specifications and appearance are subject to change without notice.

OZONEO PLUS

Low-concentration Ozone Anti-bacterial Deodorizer

Powered by *Air Success*

Made in Japan

Bacteria
elimination

Odor
elimination

Virus
removal

Ozone exists in the natural world and purifies air.

The "OZONEO PLUS" low-concentration ozone anti-bacterial deodorizer decomposes bacteria, viruses, and odor sources utilizing the powerful oxidizing power of ozone.

OZONEO PLUS provides a comfortable living environment for your living room and kitchen.

Unlike air cleaning devices, this product is not equipped with a dust collection function.

Low power consumption

OZONEO PLUS costs a mere 49 yen* per month when running all day every day.

* Based on the new electricity rate estimate of 27 yen/kWh (including tax)

Designed to be silent

OZONEO PLUS is free from such moving parts as a motor and fan, and can be comfortably used in noise-sensitive places such as bedrooms.

Economical

Maintenance involves simply cleaning the electrode unit. OZONEO PLUS does not require messy filter replacement, reducing the cost and effort of maintenance.

Timer function

OZONEO PLUS is equipped with convenient timer functions that match its various uses. You can set three timer stages: continuous operation, four-hour operation and eight-hour operation.

Low-concentration ozone completely decomposes odors in the air and odors that cling to clothes etc.

■ Patent technology* "Multiple-ring-type corona discharge"

Although OZONEO PLUS does not require a fan, it emits air that supplies low-concentration ozone to every corner of the room. It is designed to be near-silent, producing a minimum of operating noise and enabling OZONEO PLUS to run unnoticed in your living room or bedroom.

* Patent number 4551977 (Air Success)

Conceptual diagram of low-concentration ozone wind generation

■ Effects in demonstration tests

Bacteria elimination

Eliminates 99% of bacteria over 2 hours. Recommended for preventing mold and germs.

Virus removal

Eliminates 99% of viruses over 4 hours. Recommended for families with children.

Odor elimination

Significantly reduces methanethiol (smell of rotten onions).

- The bacterial and viral elimination effects were confirmed in a closed space of 25 m³ (approx. six-tatami sized room) at the Kitasato Research Center for Environmental Science.
- The odor eliminating effects were confirmed in a closed space of 109 L at Japan Food Research Laboratories.
- These effects are not demonstrated in actual use conditions. They do not guarantee that the product is effective for all odors, bacteria, and viruses.

For details, refer to the following website.
<http://www.maxell.jp/consumer/deodorization/mxap-apl250/>

* To maintain effectiveness, continuous use of the product is recommended.
